

LT30-RT Series

Battery Powered Motor with Built-in Radio Receiver

You no longer have to pull strings to have control of window fashions

Designed with simplicity in mind, the award winning LT30-RT Series motor is the industry's first battery powered motor with a built-in radio receiver. Radio Technology Somfy™ (RTS) is integrated into the new LT30-RT motor designed to automate roller shades, sheer horizontal shades and other roll-up style products. The built-in radio receiver eliminates the need for externally mounted receivers that require additional space to install.

This new and innovative motor is capable of lifting shades up to 15 lbs. and is compatible with Somfy's full collection of RTS accessories that include a Telis handheld transmitter, Decora wireless wall switch, wireless Chronis programmable timer, and home automation interfaces.

With Somfy's range of reliable and compact motors it's simple to experience the convenience of automated shades at the touch of a button.

The LT30-RT Series motors are uniquely designed to automate various types of roll-up style products at the simple touch of a button.

System Facts

Award Winning Technology: Winner of the 2005 WCMA Best New Technical Innovation Award.
